

Roofing Level Two: Perfect Bound, Trainee Guide (Paperback)

Filesize: 2.69 MB

Reviews

The book is fantastic and great. It is definitely basic but shocks in the 50 percent in the pdf. Its been printed in an remarkably basic way and it is just soon after i finished reading this publication in which really changed me, change the way i believe.

(Dr. Lukas Hills DDS)

ROOFING LEVEL TWO: PERFECT BOUND, TRAINEE GUIDE (PAPERBACK)

Pearson Education (US), United States, 1996. Paperback. Condition: New. Language: English. Brand new Book. Tennessee Fundamentals of Construction (c)2017 ISBN: 978-0-13-457843-9 This custom text meets Tennessee standards and contains Core Curriculum: Introductory Craft Skills, 5E, as well as additional modules on Project Management. NCCER has enhanced the text's appeal to an international market, primarily with new features to show how construction impacts countries around the world. A revised "Basic Safety (Construction Site Safety Orientation)" module aligns to the Occupational Safety and Health Administration's (OSHA's) 10-hour program. This means that instructors who are OSHA-500 certified are able to issue 10-hour OSHA cards to their students who successfully complete the module. Combined with an NCCER credential, the OSHA 10-hour card will show employers a credible and valuable training record. While aligning to the OSHA-based standards of the United States, this module enhances safety practices and discusses how these can change state-to-state and country-to-country. Also, the successful completion of this module will award a construction Site Safety Orientation credential. This edition of the "Introduction to Construction Math" module keeps math "real" for students by emphasizing application over theory-related exercises. By keeping math "real," the language of math is much easier to understand. As a companion piece to this module, a Basic Math Workbook is also available for instructors to use to supplement classroom activities. The "Introduction to Basic Rigging" module includes basic safety requirements for working around rigging and cranes, and rigging equipment identification. This module has been reduced in size and hours. It is an elective, and as such is not required for successful completion of the Core Curriculum. The "Basic Communication Skills" module now includes content on nonverbal communication and explains the importance of electronic messaging in the construction industry. The "Introduction to Material Handling" module now presents the basics of knot tying, as...
